Products

Scope of Shield Technology works:

Epoxy Coatings for Floors & Walls

Why epoxy coat concrete?

- Epoxy coatings provide a continuous layer, and can protect surfaces and structures from environmental, chemical and mechanical damage.
- Epoxy coatings aesthetics can lift the level of professionalism and provide a higher quality feel to a small business, commercial and industrial environment .
- Epoxy coated floors can reduce wear and tear on tyres and equipment traversing the floor.
- Epoxy coatings can provide a cleaner work environment.
- Epoxy coatings can lift the feel of a work area, where a large range of colours can be used to draw in additional light.
- Epoxy coatings can provide a very cleanable surface, for practical maintenance of a clean and hygienic work space.
