Sydney Desalination Plant

Scope of Shield Technology works:

Restoration & Protection of Hydraulic Structures

The Sydney Desalination Plant is a \$1.9 billion facility capable of producing 250 million litres of water a day, being 15% of Sydney's water requirements.

Shield Technology provided up to 20 technicians for continuous contract works spanning a period of 2 years. The works included 20,000 m2 of Vandex coatings, joint sealing, epoxy coatings to truck unloading bays, chemical bunds & tanks and pipe marking.
