# Wingham Sewage Treatment Plant Upgrade

Scope of Shield Technology works:

## Restoration & Protection of Hydraulic Structures

As part of the \$6.0 million upgrade to the Wingham sewage treatment plant, Mid Coast Water selected Epigen I311 High Build Epoxy coating to protect and restore a number of concrete structures within the plant.

Shield Technology was awarded the contract to apply the coatings.

### Asset Owner

### Products

Scope of Shield Technology works:

## Restoration & Protection of Hydraulic Structures

Shield Technology has built up significant expertise in supplying products and services to civil contractors, water authorities, asset owners and local government.

Shield Technology is able to provide specialist technicians with extensive experience in the field of application of coatings, membranes, liners, injected epoxy and polyurethane resins in water and sewer environments. Additionally, Shield technicians have training and experience in a broad range of construction and mechanical skills. Many are fully-trained, experienced and certified, confined-space-entry personnel.

Shield Technology is able to work with asset owners and managers to provide solutions that will provide trouble-free service coupled with minimal cost.

We can provide an excellent supply and fit service to your projects at competitive prices and would welcome your enquiries.
